Bilateral Meetings

- Wednesday 17th October 13:00 - 17:00

Description
Veriest is an international design house providing ASIC / FPGA and Embedded Software engineering services. Our clients are industry leaders and startups developing high-end chip technology. With headquarters in Israel and R&D centers in Serbia (Belgrade, Novi Sad and Nis), our 100+ engineers have made their mission to provide customers with superior solutions that include architecture design, design implementation for digital and mixed-signal designs, system modeling, functional and formal verification and embedded software solutions.

Areas of Activities

Services

Offer

Software / Hardware development services

100 engineers located in Serbia and Israel.

Our offer:
- ASIC/FPGA esign and verification services

- Embedded Software development

Field of expertise:
- Automotive (ISO 26262)
- Airbone (DO254)
- Neural Networks
- Networking / Wireless
- Image processing
- Industrial
- Consumer

Cooperation Offered

1. Outsourcing co-operation
2. Technical co-operation

Cooperation Requested

1. Outsourcing co-operation
2. Technical co-operation
