Description

FPM Agromehanika is one of the leading manufacturers of agricultural machinery in South-East Europe, with a tradition lasting for over 50 years. Since it was founded in 1961, the company has strived to follow technology trends and continually enhance its production, becoming the successful company it is today, with over 200 highly skilled and qualified employees, cutting-edge machines and highly developed technology in all stages of production. We are developing our product range through our in-house department for research and development, tightly cooperating with faculties and institutes for agricultural science and mechanical engineering and renowned manufacturers of agricultural machinery from Italy, France and Germany. FPM Agromehanika has attained the ISO 9001:2015 and IATF16949 certification, the most widely recognized quality management standard, while all its products are affixed with CE marking, guaranteeing safe use. The product range comprises two product groups containing several types and models: 1. TRACTOR IMPLEMENTS - Mowers and hay rakes (rotary disc mowers, single cutter bar mowers, double cutter bar mowers, wheel hay rakes, belt rakes and rotary rakes); - Tillage machines (light-weight side-shift rotary tillers, heavy-duty rotary tillers, disc harrows); - crop residue shredders- mulchers (for farming, orchards and vineyards); - Pneumatic seed drills (for maize, sugar beet, sunflower, soy, pumpkin, etc.); - Mounted fertiliser spreaders; - Snowploughs. 2. SELF-PROPELLED MACHINES - Two-wheel tractors (with power outputs of 6 hp, 8 hp, 10 hp and 12.5 hp); - Motor mowers (universal and park mowers); - Motor hoes (with power outputs of 1.5 hp and 5.5 hp); - Implements for self-propelled machines from our own production line, and for machines produced by other manufacturers. In addition to the main product range, the company also manufactures a large variety of parts and assemblies for other agricultural machinery manufacturers, and for companies within different industry sectors. Over 50 years of tradition and experience, together with modern production, guarantee reliable high-quality products. That is why FPM Agromehanika is currently present in nearly 20 countries worldwide and continues to expand to other markets. All products have been manufactured in accordance with EU legislation and have obtained CE marking.
